

Ettan Etching Press MS-3 and MotorUnit MU-1 for MS-3

This press and motor have been lightly used and are in excellent condition. I would prefer to sell both together with the blankets for \$4,500.00.

The Ettan presses are made in California so shipping charges are a consideration. Details can be seen on their website www.ettanpress.com/page/etching_press.shtml.

I can be contacted at aewarren127@hotmail.com or 905 934 6538.

I will be away from December 20th -Jan 20th.
